

The smartest web filter just got smarter!

# ProxyGuard™

Discover a revolutionary feature that utilizes real-time AI to recognize and block proxy sites students use to bypass your current content filter, such as:

- Doge
- Shuttle
- Interstellar
- Rammerhead
- Croxy
- Abyss
- Astroid
- And more...

## What makes Deledao the smartest filter?

- **InstantAI™**  
Evaluate, blur, and block content as it loads in real-time instead of relying on pre-categorized websites and keywords.
- **MediaMonitor™**  
Screen online images and videos frame by frame to blur and mute inappropriate content.
- **GameChanger™**  
Analyze mouse and keyboard movements and catch the trickiest games.

## Who we are

Founded in 2019 by Silicon Valley veterans and proxy filtering technology pioneers, Deledao addresses digital distractions in education. Initially focused on K-12 content filtering, Deledao's real-time AI solutions now encompass student safety and classroom management, serving institutions worldwide.

A. Jukes, Opdyke-Belle Rive (IL)

"I didn't realize how bad our previous solution was until I tried Deledao. The first time it went live was eye-opening. We didn't realize there were many creative ways to bypass a typical web filter. Deledao's block report just went on and on. A lot of it was YouTube. I wish I found Deledao a lot sooner. Even my superintendent likes it."
